

Contents

S. No.	Title	Page No.
Research Articles		
1.	Genetic diversity analysis in rice genotypes suitable for aerobic cultivation Ishwar Das, Rakesh Kumar, Yogender Kumar, Meenakshi, Shubham Garg, Lovneesh and Priyanka Dalal	240-250
2.	Estimation of heterosis, combining ability and gene action for productivity traits in tomato (<i>Solanum lycopersicum</i> L.) S. Teja, S. S. Masaye, A. I. Patel, D. Swetha Priya and J. Devika	251-260
3.	Genetic variability and multivariate assessment of wheat–<i>Aegilops</i> derivatives under diverse agro-climatic environments Nidhi Devi, Anamish Tyagi, Shivani Thakur, Imran Sheikh, Satinder Kaur, Vijay Rana, Vinay Kumar, Mahesh Tripathi, Harcharan Singh Dhaliwal and Vikrant Tyagi	261-271
4.	Integrated multivariate analysis reveals genetic diversity for yield, grain quality, and stress tolerance in rice (<i>Oryza sativa</i> L.) genotypes Pradeep Goud Ayeella, Ravada Divya Bandhavi, Nageswara Rao Dokula, P. Surender Reddy and G. Mahesh	272-282
5.	Morpho-biochemical diversity and GC-MS profiling of <i>Eclipta prostrata</i> (L.) genotypes Anite Titus, K. S. Sangeetha, P. Anitha, P. V. Sindhu and K. Pradheep	283-295
6.	Trait association and principal component analysis of morphological, biochemical and yield traits in upland cotton (<i>Gossypium hirsutum</i> L.) Om Prakash Yadav, Minakshi Jattan and Harpreet Singh	296-306
7.	Stability analysis for yield in early duration pigeonpea based on AMMI, GGE and multi trait stability index P. Jayamani, T. Nivethitha and M. S. Ranjani	307-314
8.	Deciphering the genetic architecture of early flowering in the high yielding rice variety ‘KAU Manu Ratna’ A. K. Ambily, P. Sindhumole, Jiji Joseph, G. Krishna Kumar, M. Surendran and Smita Nair	315-322
9.	Genetic analysis of yield-related traits in F₂ diallel cross in durum wheat (<i>Triticum durum</i> Desf.) Abderrahmane Hannachi, Insaf Bentouati, Khalil Ouadah, Zine El Abidine Fellahi and Abdelhamid Mekhlouf	323-331

10.	Assessment of morpho-physiological variability and yield potential in diverse pearl millet [<i>Pennisetum glaucum</i> (L.) R. Br.] germplasm across arid environments of Rajasthan Jaishree Tanwar, C. Tara Satyavathi, Ramesh, Supriya Ambawat, Chandan Roy, R. C. Meena, Vikas Khandelwal, Ravindra Kumar Meena and Preeti Devatwal	332-340
11.	Exploiting combining ability and heterosis for yield and fiber quality improvement in cotton (<i>Gossypium barbadense</i> L.) Abhilasha G. Priyadarshini and T. Sabesan	341-350
12.	Deciphering G × E Interaction for sugarcane yield and quality through integrated AMMI, GGE biplot, and AMMI stability parameters A. Anna Durai, Amaresh, C. Mahadevaiah and K. Gopinath	351-363
Research Notes		
13.	Genetic divergence for yield and quality traits in sesame: Implications for parental selection J. Arpita, D. Bharathi, N. Sabitha, B. Ramana Murthy and M. Reddi Sekhar	364-369
14.	Genetic diversity among economically important bamboo species of India as revealed by ISSR markers Harshita Negi, Salil Tewari, A.S. Jeena, Sayanti Mandal, Babita Bhatt, Rohit Rohit and Bagus Herwibawa	370-375
15.	Statistical dissection of quality traits for identifying genetic diversity in tobacco (<i>Nicotiana tabacum</i> L.) P. Pulli Bai, S. Rama Devi, K. Sathish Babu, K. Prabhakar, N.C. Venkateswarlu and M. Johonson	376-383
